RESEARCH INTERESTS

Bayesian Econometrics, Macroeconomics, International Finance, Machine Learning, Monetary and Fiscal Policy

EDUCATION

Ph.D., Economics, <i>University of Notre Dame</i>	Aug. 2025 - present
M.A., Economics, <i>Korea University</i>	Aug. 2024
– Thesis Advisor: <i>Kyu Ho Kang</i>	
B.A., Economics and Financial Engineering, <i>Korea University</i>	Aug. 2022
Economics, <i>Sejong University</i>	Attended 2016-2020

WORKING PAPERS

“Time-varying Bayesian Variable Selection for Macroeconomic Forecasting: A Bayesian Regression Tree Approach”, with Kyu Ho Kang and Jaeho Kim [SSRN] [Codes]

Abstract: The growing availability of large datasets in macroeconomic forecasting has renewed interest in variable selection methods. However, most existing approaches assume stable relationships among variables, failing to account for the time-varying relevance of predictors due to nonlinear dynamics and structural changes in the economy. To address this issue, we propose a Bayesian Dirac Classification and Regression Tree (B-DART) model that jointly captures time-varying predictor relevance and performs regime-specific stochastic variable selection within a non-linear tree-based framework. Empirical results show that the proposed B-DART model delivers superior forecast accuracy relative to Bayesian CART and conventional stochastic variable selection models. These gains are especially pronounced during the post-COVID-19 period, which is characterized by heightened volatility and structural instability.

PROFESSIONAL EXPERIENCE

National Assembly Budget Office (NABO)	Feb. - Jun. 2025
<i>Research Analyst, Population and Strategy Analysis Division</i>	

RESEARCH EXPERIENCE

Korea University

Research Assistant, Kyu Ho Kang

Mar. 2023 - Aug. 2024

Projects:

Outlook of the Semi-conductor Industry using LBVAR (with SK Hynix)	<i>Oct. 2024 - Feb. 2025</i>
Bank of Korea Jeju Island Tourism Business Index Development	<i>Aug. - Nov. 2024</i>
NH Bank Warning Index (NHWI) Development	<i>May - Sep. 2024</i>
Bank of Korea Econometrics Data Analysis Library Development	<i>Dec. 2023 - Jun. 2024</i>

TEACHING EXPERIENCE

Korea University

Teaching Assistant: International Finance I (Graduate), Kyu Ho Kang

Mar. - Jun. 2024

HONORS AND GRANTS

ESOB 2026 Junior Travel Grant, <i>ESOB 2026 Organizing Committee</i>	<i>Jun. 2026</i>
BK21 Fellowship, <i>Korea University</i>	<i>Mar. 2023 - Feb. 2024</i>
BK21 Graduate School Mentor–Mentee Program, <i>Korea University</i>	<i>Dec. 2023 - Feb. 2024</i>
Outstanding Research Proposal, <i>BK21 Economic Education Research Group</i>	<i>Oct. 2022</i>
Semester High Honors, <i>Korea University</i>	<i>Aug. 2022</i>
36th Economic Dissertation Contest 1st Place , <i>Maeil Business Newspaper</i>	<i>Apr. 2022</i>
Research Support Program (Jin-Ri Scholarship), <i>Korea University</i>	<i>Jun. - Dec. 2021</i>
Dissertation Competition 3rd Place, <i>Korean Resource Economics Association</i>	<i>Dec. 2020</i>
Scholarship for Academic Excellence, <i>Sejong University</i>	<i>Dec. 2017</i>

PRESENTATION

2026	European Seminar on Bayesian Econometrics (ESOB) 2026 Young Researchers Session, Rome (Scheduled)
2025	The 3rd Tokyo–Taipei–Seoul Macroeconomics Network Workshop, Seoul
2024	Economics Department PhD Conference, Seoul
2020	2020 Korea–Japan Joint Economics Seminar, Seoul (Webinar)

SKILLS AND LANGUAGES

Program Skills

Matlab, Python, R, STATA, Dynare, L^AT_EX

Languages

Korean (native), English (fluent)

NON-ACADEMIC WORK EXPERIENCE

Republic of Korea Army (Mandatory), Finished service as Sergeant	<i>July 2017 - Apr. 2019</i>
--	------------------------------

Last updated: June 15, 2026.
